

The Baldwin Boys Volleyball team has come a long way in recent years. Coach Kalei Houpo in his second year as head coach for the team, has been its assistant coach for the previous 5 years and has watched and helped the team to rebuild. In his inaugural year as head coach (2009-2010) he led the Bears to a 12-2 season and with that record captured the MIL Division 1 Championship, something that hasn't been done at Baldwin for over 10 years. Baldwin prides its volleyball efforts on academics and sportsmanship and relies on positive attitudes to succeed. Their recent success cannot be attributed to any one factor, but a collective effort of coaches, players, families, and the community. Baldwin looks forward to staying competitive in the coming years, and hopes to continue in building a program with a solid foundation.
